**Subject: W8301USBA/W8301LUSB 2A USB Charger
Application Precautions (TM-020088)**

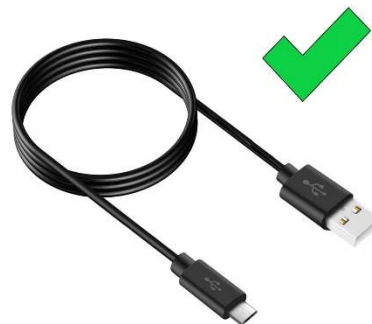

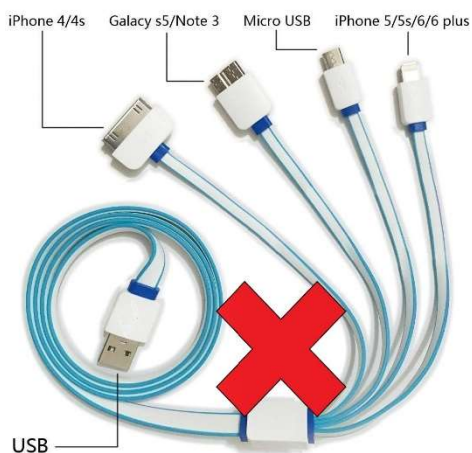

Application Precautions:

The following are some precautions when installing and using the USB Charger, in order to avoid early failure of the charger:

- Do not mount 2 units of USB Charger side-by-side, this may inhibit the ventilation of the heat generated when charging at the maximum load current (2 Amp.)

- Do not use multi-split USB charging cable (e.g. 4-in-1 cable) to charge multiple devices at the same time, this may overload the USB charger
